The author gives six main reasons why students drop out of graduate school.
• Which of those reasons will be most challenging for you? Why?
• Which of those reasons will be the least likely obstacle for you? Why?
On page 6, the author cites a study identifying six different types of advisors.
• Which of these types does your advisor belong to?
• Do you think that your type of advisor has a higher than average, average, or lower than average student success rate? Why?
