

Six Major Reasons Why Graduate Students Don't Finish
by Wendy Y. Carter
Individual Reflection

On page 7, the author cites a study identifying six different types of advisors.

- Which of these types does your advisor belong to?

- Do you think that your “type” of advisor has a higher than average, average, or lower than average student success rate? Why?

The author gives six main reasons why students drop out of graduate school.

- Which of those reasons will be most challenging for you? Why?

- Which of those reasons will be the least likely obstacle for you? Why?
