

# TE<sub>x</sub>ES Content Review

## for Math 8-12 teacher qualifying and certification exam

Content Review is recommended for all students seeking 8-12 Math teacher certification who have completed at least 60 hours and who are taking or have taken the Capstone course (4303). Do this **BEFORE** your student teaching internship semester.

Anyone may attend the reviews, but you must be accepted to the Teacher Education Program to take your content qualifying exam. See your secondary education advisor, AnaLee Covey, for details.

**At least 6 hours of documented review sessions are required before you can take the content qualifying exam!**

**Preregistration required. To register, email [acovey@utep.edu](mailto:acovey@utep.edu) (include Name, UTEP ID, Certification Subject & Date of Review)**

Please print and review the TExES Mathematics 8-12 Preparation Handbook and complete practice questions prior to the first workshop. Download your handbook at: [http://texas.ets.org/assets/pdf/testprep\\_manuals/135\\_math8-12.pdf](http://texas.ets.org/assets/pdf/testprep_manuals/135_math8-12.pdf)
